ELSTREE RURAL DISTRICT

**Annual Report
OF THE
MEDICAL OFFICER OF HEALTH**

For the Year 1955

BY

G. WINN EVERETT, M.B., B.S., D.R.C.O.G.

TOGETHER WITH

The Report

OF

THE SANITARY INSPECTOR

A. D. S. BLACKHALL, A.R.San.I., M.S.I.A.

Members of the Council

(1955-1956)

Chairman:

A. FARR, J.P.

Vice-Chairman:

A. ARMSTRONG

Members:

R. A. ATKINSON

E. J. BROADLEY

F. U. BROOKER

J. C. M. BUTLER

A. J. C. CATFORD

R. C. CRUMP

T. J. DAVIES

J. GARDNER

Miss J. GREGORI

R. A. O'CONNOR

G. S. P. SALMON

J. E. SUTTON

Medical Officer of Health:

G. WINN EVERETT, M.B., B.S., D.R.C.O.G.

Senior Sanitary Inspector:

A. D. S. BLACKHALL, A.R.San.I., M.R.S.H.

Additional Sanitary Inspector:

G. E. MALE, A.R.San.I., M.R.S.H.

Clerks:

E. P. MOLYNEUX

Mrs. M. S. J. KEMP

Public Health Department:

Council Offices, Shenley Road, Boreham Wood, Herts.

Annual Report of the Medical Officer of Health

*To the Chairman and Members of the
Elstree Rural District Council*

MR. CHAIRMAN, MADAM AND GENTLEMEN,

I have pleasure in presenting my 15th Annual Report on the health of the district for the year 1955.

VITAL STATISTICS

The total number of deaths during the year was 324 including 200 occurring at Shenley Hospital. It will be seen that a separate "local" rate has been computed, for the purpose of comparison, by excluding the hospital patients.

DIPHTHERIA AND WHOOPING COUGH

A monthly clinic is held for immunisation and close co-operation is maintained with the Divisional Medical Officer. 274 children were immunised during the year—71 against diphtheria, 108 against whooping cough, and 95 received injections of combined diphtheria and whooping cough prophylactic.

TUBERCULOSIS

There were 15 new cases during the year as compared with 15, 16, 14, 15 and 11 respectively in the years 1954 to 1950 inclusive. These figures do not include cases reported from Shenley Hospital.

FOOD

There has been an increase in the number of animals slaughtered in the district, all the carcases were inspected. Samples of ice cream and milk were taken at frequent intervals, the results were generally satisfactory.

GENERAL

Once more it gives me great pleasure to record my thanks to the Council for their support during the year and to the Sanitary Inspectors and officials generally for their willing help and co-operation at all times.

I am,

Your obedient servant,

G. WINN EVERETT,

Medical Officer of Health.

SECTION A

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area	8,339 acres
Population, 1931 Census*	5,946
Population, 1951 Census	14,757
Registrar-General's estimate of resident population mid-1955	23,580
No. of inhabited houses (end of 1955) according to Rate Books	{ Elstree .. 5,845 Shenley .. 726 Ridge .. 82
Rateable Value (1st April, 1956)	£352,334
Estimated product of a penny rate (1st April, 1956)	£1,468

* Adjusted in respect of alteration of boundary in 1935.

NATURAL DRAINAGE and GEOLOGICAL FORMATION

The direction of the natural drainage is roughly South-East to North-West in the South-Western part and Easterly in the Eastern part of the district. In the Southern part, comprising mainly the residential and industrial area of Boreham Wood, Tykes Water in the West and the Rowley Lane stream in the East, discharge into the Thames via the River Colne and the River Lea respectively. In addition, there is in the North-East part of the area an outfall to the Lea via the Swallow Holes. These are the result of fissures in the chalk, the Mimmsbrook disappearing below ground at North Mimms, beyond the North-Eastern boundary of the district.

The Southern half of the district, i.e. South of Green Street, is mainly London Clay to a depth of 200-350 feet. North of this point, extending into Shenley and flanked by London Clay, the subsoil is pebble gravel, with chalk and glacial gravel beyond. At the extreme North of the district, there is boulder clay on the East, with some alluvium and valley gravel on the West.

SOCIAL CONDITIONS

Considerable industrial activity is found in the area which gives employment to practically five thousand men and women excluding the "film crowds" which invade the district from time to time. In addition to the film studios, factories exist in which are manufactured cosmetics, electrical accessories, ladies' hosiery and underwear, oil and petrol tanks, pharmaceutical chemicals, photographic materials, rubber and rubberised cork components, while a number of other Companies operate light engineering businesses, printing works and building and associated trades.

VITAL STATISTICS

			Total	M.	F.
Live Births	Legitimate	409	218	191
	Illegitimate	16	9	7

Birth Rate: 18.0 per 1,000 *estimated resident population.*

		Total	M.	F.
Stillbirths	10	5	5
	Rate: 23.0 per 1,000 total (<i>live and still births</i>)			

Deaths from pregnancy, childbirth, abortion		Nil
---	--	-----

Deaths of Infants under 1 year of age		
---------------------------------------	--	--

Legitimate	7	2	5
Illegitimate	—	—	—

Infant Death Rates:—		
----------------------	--	--

All infants per 1,000 live births	16.2
Legitimate infants per 1,000 legitimate live births	17.1
Illegitimate infants per 1,000 illegitimate live births	—

Deaths (all causes)	324	137	187
---------------------	-------------	-----	-----	-----

Death Rate: 13.7 per 1,000 *estimated average population.*

"Local" Death Rate excl. Shenley Hospital: 5.8 per 1,000 population.

The Comparability Factor (furnished by the Registrar-General to correct anomalies in age and sex distribution, compared with the Country as a whole) is given as .85 for births and 1.3 for deaths. The following table shows how the local birth and death rates compare with those given for Hertfordshire and for the whole country.

	Elstree R.D.C.	County of Hertford	England & Wales
Birth Rate 15.3*	15.7	15.0
Death Rate 17.8*	10.3	11.7

* Actual rate \times Comparability Factor to give Standardised rate.

SECTION B

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

1. PUBLIC HEALTH OFFICERS

One part-time Medical Officer of Health.

One Senior and one additional Sanitary Inspector.

(Both whole-time, both qualified Sanitary Inspectors and Meat and Food Inspectors).

The General Purposes and Finance Committee deal with all matters relating to Public Health. They meet on the second Monday in each month and receive the reports of the Medical Officer of Health and the Sanitary Inspector.

2. (a) LABORATORY FACILITIES

Examination of sputum is carried out at the Herts County Council Laboratory. Swabs are examined by the Clinical Research Association. Samples of water, milk and ice-cream are examined at the Public Health Sector Laboratory, Peace Memorial Hospital, Watford.

(b) AMBULANCE FACILITIES

Cases of infectious disease are conveyed to the Coppetts Wood Isolation Hospital, Muswell Hill. The ambulance for non-infectious cases provided by the Herts County Council is stationed at the Fire Station, Manor Way, and is manned by the Herts Ambulance Brigade staff. If this service is not available, Ambulances are on call from a pool controlled by the West Herts Divisional Control, St. Albans.

(c) NURSING IN THE HOME

The Borehamwood area has three whole-time Health Visitors, two District Nurses employed on general nursing, two on midwifery and one on midwifery and general nursing. In addition one nurse is engaged part-time on general nursing and midwifery.

Shenley has one District Nurse engaged on combined general nursing, health visiting and midwifery.

(d) TREATMENT CENTRES AND CLINICS

(i) Maternity and Child Welfare

Clinic, Shenley Road,
Boreham Wood.

Ante-Natal:
Thursdays at 2 p.m.

Infants:
Tuesdays and Wednesdays 2 to
4 p.m.

Diphtheria and Whooping Cough
Immunisation: 2nd Wednesday in
each month at 10.30 a.m.

(ii) School Dental Clinic, Child Welfare Clinic, Shenley Road, Boreham Wood.

Tuesdays and Wednesdays 10 to
12.30 p.m. Fridays 10 to 4.30 p.m.
Treatment by appointment.

(e) HOSPITALS

The Rural District of Elstree is covered by the North West Metropolitan Regional Hospital Board. Individual hospitals are managed by Hospital Management Committee Groups.

Barnet Group (No. 5) Hospital Management Committee

Barnet General Hospital

General Hospital with complement of 478 beds, with the usual medical and surgical facilities. Regular consultative clinics are as follows:—

Ante-natal	Orthopaedic
Dental	Paediatric
Dermatological	Physical
Chiropody	medicine
Ear, nose and throat	Post-natal
Geriatric	Psychiatric
Gynaecological	Radiotherapy
Medical	Sub-Fertility (Males)
Neurology	Surgical
Ophthalmic	Tuberculosis

St. Stephens Hospital
(formerly Barnet Isolation Hospital) Small general hospital with complement of 88 beds.

Victoria Hospital,
Wood Street, Barnet. Maternity Hospital with complement of 48 Maternity beds and 48 cots.

Clare Hall Hospital,
South Mimms. Chest Hospital with complement of 452 beds.

Elmbank Hospital,
Arkley. Female Geriatric unit with complement of 27 beds.

Mid Herts Group (No. 7) Hospital Management Committee

Hill End Hospital and Clinic,
St. Albans. Psychiatric and Child Guidance service.

Mondays to Fridays: 9 a.m. to
5.15 p.m.

Saturdays: 9 a.m. to 1 p.m.
(Patients seen by appointment only)

Venereal Diseases:

Attendances

Females:

Tuesdays 5 to 7 p.m.
Fridays 1.30 to 4 p.m.

Males:

Wednesdays 2 to 3.30 p.m.
Fridays 4.30 to 6.30 p.m.

St. Albans City Hospital,
Osterhills Unit,
Normandy Road, St. Albans.

West Herts Group (No. 9) Hospital Management Committee

Bushey and District Hospital,
Bushey. General Hospital with complement of 39 beds.

Northern Group (No. 20) Hospital Management Committee

Coppets Wood Hospital,
London, N.20.
(Tel.: TUDor 9792)

All cases of Infectious Diseases (excluding Smallpox) are taken to this hospital. Bed complement 144.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA

WATER

The following information with respect to the water supply of the area is given in accordance with Circular 42/51 of the Ministry of Health.

1. The water supply was maintained during 1955 at a satisfactory standard in (a) quality and (b) quantity.
The Colne Valley Water Company are the suppliers and
2. have provided the following information with regard to the sampling of the water supplies during the year:—
540 samples of raw water were submitted to bacteriological examination. The results were variable.
2,403 samples of supply water were submitted to bacteriological examination. The results were very satisfactory.
284 samples of raw water were examined chemically and the results were very satisfactory.
460 samples of supply water were examined chemically and the results were very satisfactory.
3. The water is not likely to be plumbo-solvent.
4. Of the 6,653 houses in the district:—
(a) 6,641 or 99.82 per cent are supplied from piped water mains direct to the house.
(b) 6 or .09 per cent by means of standpipes (4 Shenley Parish, 2 Ridge Parish).
(c) 6 or .09 per cent isolated houses have no piped water supply.

DRAINAGE AND SEWERAGE

There were no extensions of major sewerage schemes, apart from those in connection with development on the Council's and the London County Council's housing sites. This area forms part of the Colne Valley Sewerage Board's Scheme which takes all sewage effluent in their trunk sewer.

RIVERS AND STREAMS

A few cases of minor pollution of streams were investigated. Several ponds were treated with D.D.T. Insecticide as a precaution against the breeding of mosquitoes.

CLOSET ACCOMMODATION

With the exception of about 70 pail closets at out-lying farms and farm cottages, all the dwelling houses in the district are served by water-closets; these, with the exception of a few which discharge into cesspools, are connected to public sewers.

PUBLIC CLEANSING

House refuse is collected from the whole of the district by the Council's own staff (under the control of the Engineer and Surveyor), and disposed of by controlled tipping on the site of the disused sewage works, Boreham Wood.

SANITARY INSPECTION OF THE AREA

The prescribed tabular statement is contained in the Sanitary Inspector's report, which commences on page 13.

SHOPS AND OFFICES

Normal routine inspections were carried out at these premises during the year, no statutory action was taken.

CAMPING SITES

- (a) The number of sites in the area in use during 1955 was three, licensed by the Council under Section 269 of the Public Health Act, 1936.
- (b) 27 annual licences authorising individual applicants to station and use moveable dwellings were issued during the year.
- (c) Estimated maximum number of caravans stationed in the area at one time, including holders of individual licences, 136. This would probably give a total population living in caravans in the district of approximately 350.

SMOKE ABATEMENT

No statutory action was taken during the year. The Council is a member of the Smoke Abatement Society and is a constituent member of the London and Home Counties Smoke Abatement Advisory Council; the Sanitary Inspector represents the Hertfordshire Local Authorities on the Executive Committee of the Advisory Council.

SWIMMING BATHS

There are no public swimming baths in the area. There is one small private swimming bath.

SCHOOLS

The sanitary condition of the schools is satisfactory. The water is supplied in all instances by the Colne Valley Water Company. The schools are visited regularly by the Assistant School Medical Officer, and especially on an outbreak of any infectious disease, for the purpose of excluding or examining possible contacts and advising on any necessary measures.

No schools were closed for infectious disease.

RODENT CONTROL

One Rodent Operative is employed part-time on this work under the supervision of the Additional Sanitary Inspector. During the year investigation was carried out at 282 properties for the purposes of rodent control; of these, 103 were found to be infested with rats and 29 infested with mice. These were subsequently treated by the local authority.

The Council operate a free service for domestic premises but a charge is made for rodent control treatment carried out to business and other premises.

The annual test baiting of the sewers was carried out covering the whole of the district. Sixty manholes were baited and two complete takes were recorded.

SECTION D HOUSING

In accordance with the Ministry of Health Circular 17/55, details relating to the demolition, closing and repair of houses have not been included in this report.

A survey of the houses in the area was completed during the year, this revealed that there are 53 unfit houses in the district. It is intended to have these properties demolished within 5 years.

The Council have given consideration to 28 applications for Improvement Grants. Of these applications 9 were granted, 7 have been approved in principle and 12 have been refused or withdrawn.

SECTION E INSPECTION AND SUPERVISION OF FOOD

(a) MILK SUPPLY

For results of routine sampling and details of licences issued see page 18 of the Sanitary Inspector's Report.

(b) SLAUGHTERHOUSES AND FOOD SUPPLIES

See page 17 of the Sanitary Inspector's Report.

(c) ICE CREAM

See page 19 of the Sanitary Inspector's Report.

SECTION F

PREVALENCE OF AND CONTROL OVER INFECTIOUS AND OTHER DISEASES

There were two cases of Diphtheria, both children (boys aged 1 year and 12 years) being members of a family in which there had been 3 cases of Diphtheria in 1954. The mother was found to be a carrier of C. Diphtheria and received treatment in hospital.

Of the two cases which occurred during the year, the younger child had not been immunised, the elder boy completed a primary immunisation course in January 1949. Both cases made uneventful recoveries.

The following table gives the incidence of notifiable diseases during the year:—

Disease	Total notified	Total cases admitted to Hospital	Total Deaths
Scarlet Fever ..	12	—	—
Diphtheria ..	2	2	—
Puerperal Pyrexia ..	1	—	—

Annual Report of the Sanitary Inspector

*To the Chairman and Members of the
Elstree Rural District Council*

MR. CHAIRMAN, MADAM AND GENTLEMEN,

In presenting my seventeenth Annual Report for the year 1955, my role is comparable with that of a non-playing captain. After six long months of sick leave I am now on the point of returning to duty in time for the publication of this Report.

During the year under review the Council's five-year programme for the clearance of unfit houses was submitted to the Minister of Housing and Local Government. The number of houses affected is 53 and the number of families to be rehoused 37, the remaining houses having been left vacant by arrangement with the owners. It is not anticipated that there will be much difficulty in completing this programme within the five-year period.

In accordance with the provisions of the Housing Acts, 1949-1954, 28 applications for Improvement Grants were made and presented to the appropriate Committee during the year. Of this number 9 were granted and 7 received approval in principle.

I am more than grateful to the Council for the consideration and kindness they have shewn me during my period of incapacity. I think the greatest source of frustration for me was not being able to do my work. To be of some little service to the community, to work while it is day; there is no greater satisfaction. It is a most pleasant thing for me to place on record that I derived considerable comfort from the thought that Mr. Male was deputising for me so ably and conscientiously. To him, the staff of the Public Health Department and my colleagues generally, I owe more than ever my heartfelt thanks.

I have the honour to be,

Mr. Chairman, Madam and Gentlemen,

Your obedient servant,

A. D. S. BLACKHALL,
Sanitary Inspector.

**FOOD AND DRUGS ACTS, 1938 to 1950
Milk and Dairies Regulations, 1949**

There are seven purveyors retailing milk throughout the district and the following table gives details of milk licences issued. The

Rural District of Elstree is included in the Milk (Special Designations) (Specified Areas) Order 1951 which requires that all milk sold in this area is of a special designation viz. Pasteurised, Sterilised, or Tuberculin Tested.

No. of Licences issued	Sterilised	Pasteurised	Tuberculin Tested	Total
Dealers' Licences ..	6	5	6	17
Supplementary Licences	3	3	3	9

The following table gives particulars of samples taken during the year from purveyors within the district. All samples satisfied the prescribed tests as required by the Milk and Dairies Regulations.

Total No. of Samples	Tuberculin Tested	Pasteurised	Sterilised
25	6	18	1

MILK IN SCHOOLS SCHEME

The following table gives the result of samples taken by the County Inspectors:—

Total No. of samples	Pasteurised	Passed	Failed
15	15	15	-

FOOD PREMISES

There are 164 premises in the district where food is prepared for sale, or sold, or offered or exposed for sale to the public; 432 inspections were made in enforcing the provisions of various legislation at present in force.

The following table gives a summary of the types of food premises in the area.

General provision shops	29	Meat shops	13
Confectioners (Sweets etc.)	17	Greengrocers	13
Confectioners (Bakers) ..	7	Fishmongers	5
Ice Cream Manufacturers	1	Bakehouses	4
Cafes and Restaurants ..	10	Factory Canteens	26
Building Site Canteens ..	3	School Canteens	14
Licensed Premises ..	19	Stalls	2
Chemists	5	Off Licences	4

**ICE CREAM (HEAT TREATMENT) REGULATIONS,
1947 to 1951**

There are 4 premises in the district registered under Section 14 of the Food and Drugs Act, 1938 for manufacture and sale, and 35 premises registered for the sale of ice cream. Only one manufacturer was actually operating during the year.

20 samples were taken during the year of which 10 were from vendors trading ice-cream manufactured outside the district and the remainder from the manufacturer within the district. The results of the bacteriological examinations are as follows:—

Results			
Grade I	Grade II	Grade III	Grade IV
18	Nil	1	1

Provisional Grades 1 and 2 are regarded as satisfactory, Grades 3 and 4 are unsatisfactory.

It will be seen that 90 per cent of samples fall into Grades 1 and 2, and 10 per cent fall into Grades 3 and 4.
